

EDUCATION

National University of Computer and Emerging Sciences
Bachelors in Artificial Intelligence (2021 – Ongoing)

Islamabad, Pakistan

EMPLOYMENT

Software Developer

IVY Interactive Solutions, Islamabad, Pakistan

May 2025 – Present

- Automated project planning, reducing manual effort and accelerating delivery.
- Developed a dashboard for real-time analytics, enabling early risk detection.
- Collaborate with cross-functional teams to deliver scalable software solutions.
- Support timely delivery by maintaining technical documentation and assisting with deployments.

AI Intern

CarbonTeq, Lahore, Pakistan

July 2024 – September 2024

- Delivered a Retrieval-Augmented Generation (RAG) system, improving AI response relevance.
- Enhanced business insights by deploying ML models for predictive analytics.
- Automated model deployment with CI/CD, reducing release time and errors.

Full Stack Development Intern

CarbonTeq, Lahore, Pakistan

July 2022 – September 2022

- Built a DNS client, streamlining hostname-to-IP resolution for internal tools.
- Secured data flow by developing RESTful APIs with JWT authentication and MongoDB.
- Worked in Agile teams, collaborating on daily sprints and stand-ups.

TECHNICAL SKILLS

Frontend: React.js, Next.js, Svelte, Tailwind CSS, HTML5, CSS3, JavaScript (ES6+)

Backend: Node.js, Express.js, Flask, Django, REST APIs, GraphQL

Databases: MongoDB, SQL, Firebase, PostgreSQL

DevOps and MLOps: Docker, Git, CI/CD, MLflow, Prometheus, Grafana

AI and Machine Learning: Python, TensorFlow, PyTorch, LangChain, HuggingFace, OpenAI API

PROJECTS

ASB Gaming

Gaming Services Platform

- Developed a sleek, responsive web platform for gaming service orders without user sign-up.
- Built a dark-themed, mobile-first UI with Tailwind CSS for smooth user experience.
- Implemented dynamic service selection, order placement, and clean cart management.
- Integrated secure and customizable payment processing using Stripe API.
- Deployed on Vercel using Next.js 14 App Router for high performance.

BTC Conversa

Conversational AI Banking Assistant

- Developed the complete frontend in React (Next.js) with a modern, responsive UI using Tailwind CSS.
- Integrated the frontend with the existing Flask backend and Rasa-based conversational agent.
- Modified Rasa responses to return structured JSON instead of raw HTML for better frontend handling.

Arbitrage-Bot

Trading Bot Dashboard

- Developed a real-time dashboard for monitoring trading signals from an arbitrage bot.
- Integrated WebSockets for instant updates and interaction with market signals.
- Built a user-friendly frontend to visualize bot performance and trade executions.

Pixel Arrays

Personal Photography Website

- Created a minimalist portfolio website to showcase personal photography projects.
- Implemented image optimization and lazy loading for performance improvements.
